DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 50, 52, 54, 61-62, 81-82, 87-88, 93, 95, and 98, drawn to temporal-spatial Hierarchical Coding and Decoding.

Group II, claim(s) 51, 53, 54, 63-64, 83-84, 89-90, 94, 96-9, drawn to recursive temporal-spatial Hierarchical Coding and Decoding.

Group III, claim(s) 54-59, 65-80, 85-86, 91-92, drawn to recursive three dimensional subband coding and decoding.

The inventions listed as Groups I and II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group 1 invention is temporal-spatial Hierarchical Coding and Decoding. The special technical feature of Group II invention is recursive temporal-spatial Hierarchical Coding and Decoding. And the special technical feature of Group III invention is recursive three dimensional temporal-spatial subband coding and decoding. Each group lacks the same technical features of the others.

2. Regarding **claim 60**, it depends on the cancelled claim 8, therefore it is disregarded.
3. Applicant is advised that the reply to this requirement to be complete must include an election of species or invention to be examined even though the requirement is traversed (37 CFR 1.143).
